Tribe breaks ground for new daycare center

Shawnee News Star

After six years of planning, saving and waiting, the Absentee Shawnee Tribe broke ground on an estimated \$1.6 million child development center January 7th, Wednesday afternoon at its headquarters just south of Shawnee.

Absentee Shawnee Tribal Gov. Scott Miller said Wednesday all funds for the new center came from a federal grant awarded in 2004 to the tribe by the Child Care and Development Fund, which allocated around \$5 billion last year to help improve and construct new child care centers across the nation.

"The grant allows you operating costs and it allows you to set aside for construction, so that's how we were able to fund it fully through the grant," Miller said.

Miller said the CCDF grant was awarded each year, beginning in 2004, until the funds grew to the point where the tribe could confidently begin construction without dipping into its general fund.

"That's important because that [using money from the general fund] would take away from other programs," Miller explained. "So, this is basically a win-win situation for us because we're not asking for any money from the tribe's tax revenues."

"With the economy the way it is, every dollar is important to us," he added.

The new child care facility, called Building Blocks II, will serve about 80 children - both tribal and non-tribal - and the structure itself will dwarf the tribe's first child care center at 8,000 square feet in size.

After the original Building Blocks Child Development Center opened several years ago, Miller said demand was high

for its services. The center, which accommodates roughly 60 children, even had a waiting list.

Set to be completed in August, Miller said the time is right for Building Blocks II to open to the public.

"There was a couple of day cares that closed in the Tecumseh area in the past couple of years, so, of course, demand is going up," he said.

He said a marketing campaign will be launched in the coming months to ensure solid enrollment when the center opens toward the end of the coming summer.

The tribe also plans to break ground on a clinic in Little Axe within the "next 90 days or so," Miller said.

"This is our year," Miller told the audience during the groundbreaking Wednesday. "This is just the beginning. We feel like a lot of things are going to happen for us this year."

JANUARY 2009

Editorial by Governor Scott Miller

Ho! Hi gi ke ya fa ho wa se li si mi mo?

I hope everyone had a Merry Christmas and a safe New Year. 2008 has come to a close with several important issues addressed and projects set to begin in 2009. I am happy to report the tribe will be ending 2008 on a positive note with all the budgets approved for 2009 and this year's audit was complete on time. The department managers and employees also put in a much appreciated effort to keep budget request conservative without interrupting services during the upcoming year. The Finance Department has worked very hard on reconciling the tribe's bank accounts and developing the budgets for 2009. Thanks goes out to all tribal employees for their hard work during 2008.

The Executive Committee has been working hard to further develop projects that began in early 2008. One project that has begun construction as of print of this paper is the new childcare center called Building Blocks 2, at the tribal complex. The new center will be approximately 8000 square feet, which will accommodate approximately 80 children. As construction moves along, we will begin a marketing campaign to recruit licensed teachers and to begin an enrollment waiting list for opening day. Construction for the new center is scheduled to be complete by August 2009. This construction project is funded with our childcare grant we receive through Health and Human Services.

Building Blocks is currently finishing up a renovation project to expand a classroom and install new learning equipment for the children. The center is currently going through realignment with the curriculum and activities being a priority for the children along with team building for the staff. Ms. Rita Pine is working with Building Blocks as a consultant to help implement the curriculum, activities, and team building. She also has a role in the set up of Building Blocks 2 during and after construction. I would like to thank Rita for working with us in the current center and the new center.

Our Joint Venture health clinic will be funded in 2009. The Executive Committee approved moving forward with the funding process, which is guaranteed by the Department of Interior Loan Guarantee Program. This means that 90% of the construction funding will be guaranteed by the Department of the Interior, if there were a default during the repayment process. Several individuals have worked very hard in all aspect of the Joint Venture and I want to thank

them all. The Joint Venture project is one of the bright spots under my administration along with the Building Blocks 2 project. It is anticipated that will break ground on the new clinic in January/February of 2009.

I am proud to share that the Absentee Shawnee Police Department has gone above and beyond to offset budgetary issues by collaborating with the Absentee Shawnee Housing Authority. There is a mutual agreement between the Tribe and ASHA to provide law enforcement services beyond what is provided by local law enforcement agencies to tenants under ASHA management. ASPD is also working to be cross deputized with Cleveland County Sheriff's Department. This is a relationship that will be beneficial to both law enforcement agencies and tribal citizen living in the eastern part of Cleveland County. ASPD is opening a satellite office next to the AST Convenience Store in Little Axe. This office will house one officer per shift, who will be dedicated to the Little Axe area.

A major goal for the Executive Committee, during the latter part of 2008, was to change the overall image of our Tribe. The Executive Committee felt one major aspect to changing our image was to better the communication between the Executive Committee members. The result of this change is evident in the accomplishments you see in this very newspaper for the past two months. Another aspect needing changed was the fear employees had during changes in leadership. There are many good employees working for our tribe and they have done what is asked of them without question the past several months. The Executive Committee feels the employees are now more confident and able to do their jobs without fear of losing them.

Choices have been tough this year in regard to meet Tribal citizen needs and increase revenue but due to the ongoing efforts of our dedicated Executive Committee, of which I am honored to be a part. We have seen an increase in gaming revenues to a stable point in today's economy, met budgetary requirements, and saw new forms of services evolve. This creative dynamic shown by the Executive Committee in relation to getting their programs focused has been an amazing and inspiring process to watch as it slowly emerged. In the future I, as your leader, see us productively moving towards additional collaborations with colleges and universities, other Tribal governments, and financial institutions and as needed, the state and federal agencies. I see tomorrow as hopeful and prophetic and I look forward to continuing my efforts to make the Tribe more prosperous and debt free for our children and future generations. I, along with the Executive Committee, feel 2009 is the year for positive things to happen for our Tribe.

Representative's Report

The following items are the current initiatives of the Office of Tribal Representative:

Cultural Preservation Center

Currently, the old finance building is undergoing a 2 to 3 month renovation by the Office of Environmental Protection in order for the Cultural Preservation/Tribal Historic Preservation Department to be located in it. The AST Gift Shop and Tribal Library will be included as it will allow the AST Gift shop to expand merchandise items and provide easier access for potential customers.

By creating a Cultural Preservation Center, it will enhance opportunities for grant applications. This re-organization will allow for more display space for tribal items and for various culturally related classroom spaces.

Plans are being discussed to reactive the Language Preservation program. To kick-start the language preservation initiative, the Executive Committee has recently passed a resolution declaring the Shawnee language as the official language of the Absentee Shawnee Tribe of Oklahoma. The State of Oklahoma is attempting to declare English as the official language of this state, thus, it is in the Tribes best interest to set such a declaration of the Shawnee language into place.

A resolution passed directing pertinent entities of the Tribe to add traffic signs at the Tribal complex and at Tribal enterprises with both an English and Shawnee language version.

Detailed and advanced language initiatives will be incorporated into the five (5) and ten (10) year Strategic Plan. The Executive Committee realizes and supports that culture and language are both critical elements to our identity as a federally recognized self-governance Tribe and are making sincere effort to preserve both.

Division of Human Services

In assessing the services offered through various service-oriented programs such as Social Services, Domestic Violence, ICW and Promoting Safe & Stable Families, a Division of Human Services is to be created. Once Cultural Preservation is able to relocate to the old finance building, these service programs will be relocated to the first floor of building one to provide easier access to the handicapped and elders. Creating a Division of Human Services will streamline the services offered and insure that the clients served are getting the maximum service and information available. A referral form system is being created for this purpose. Clients will be referred in-house to AST departments and to agencies outside of the tribe that may assist where the Tribe cannot. If AST Programs are unable to help our applicants, the Tribe will do their best to re-direct you to another agency. Clients in need of training and employment guidance will be referred to the Division of Education and Employment so they can access the tools and support needed to become self-sufficient.

Division of Education & Employment

The WIA Program (Workforce Investment Act), located in the Social Service Department, will be transferred to the Division of Education and Employment (DEE). The Division of Education & Employment will consist of the Higher Education Program, the Adult Vocational Program, the Zahn Fund, the JOM program and the WIA program. In the future, once TERO (Tribal Employment Rights Office) is established, this too will be located in the DEE. By combining said programs

into one division it will allow the Tribe to focus on academic and vocational development of a tribal workforce. As the Tribe progresses in the areas of economic development and bringing other programs into the tribe, it is important that a database be created of educated and skilled workers to fill positions as they become available.

The Tribal workforce can be strengthened by developing a pipeline of education and employment activities that will include: 1) working with other departments and/or tribal enterprises to determine which types of jobs are available and which types of jobs are projected for the future; 2) focus on drop out prevention for our youth; 3) gear both youth and adults into higher education and vocational training programs that align with projected jobs within the AST tribe and prepare for jobs in demand according to labor market data; 4) guide graduates of such programs into the Workforce Investment Program where they can be placed in Work Experience activities or On the Job Training to compliment the education they have completed 5) provide newly employed individuals with support services needed to begin and maintain employment.

Community Outreach

As families face hardships Tribal service programs need to be more accessible and to meet this challenge both the Division of Human Services and Division of Education & Employment will conduct community outreach twice per month, the 1st and 3rd Friday of each month, at the Little Axe Resource Center from 8 a.m. to 12 p.m. Information about these programs and applications will be provided during this time.

Secretary's office:

As a recap I would like to say that I saw a number of major accomplishments for this year:

Starting the VISA Card system for the Tribal Children's clothing program – this system replaced the check system that was problematic both for the parent and for the store.

By renovating the Tribal duplexes located on the AST campus the Office of Environmental Health offices were able to upgrade to a cleaner, safer work environment.

Major repairs were conducted on and at the Tribe's rental properties. This action increases their market value and sustainability.

The AST campus needed a facelift and maintenance gave it one by enhancing the beauty of the campus through landscaping and painting.

In order to promote efficiency and create opportunities a Car Pool process has been initiated that is assisting to offset budgetary distress.

Each department within the Tribe was tasked with making a 40% general fund budget cut and did so successfully.

I would like to take a moment and say thank my staff as without their dedication to the Tribe and its citizens these tasks couldn't have and wouldn't have been accomplished. I also extend a heartfelt thank you to the Executive Committee for working so well together these last few months and I appreciate the real experience of seeing how a team can work together instead of against each other for the good of the Tribe. I really have enjoyed working with the new elected officials.

To those families, we would like to send our deepest sympathies and let you know that our thoughts and prayers are with you during this time of the loss of your loved one.

The Executive Committee Staff

New HR Director

The Executive Committee would like to introduce and welcome the new Human Resources Director Paula Green. Paula comes to the AST's from the Otoe Tribe at First Council Casino in Ponca City where she was the Assistant Manager of Human Resources. She has also previously worked as a Human Resources Specialist for the Sac & Fox Casino in Kansas. Paula has

a Bachelor's Degree in Business Administration with a major in Human Resources from University of Central Oklahoma in Edmond. She also has an Associates Degree in Accounting from Connors State College. Paula has stated, "My main goals are to reestablish the integrity and functionality of the HR Department, to provide assistance and guidance to all departments in all aspects of personnel issues, and to restore communication and rebuild working relationships between HR and all other departments." In her short time here, Paula has negotiated, along with Procurement, for new health insurance for tribal employees to provide not only better rates but adequate coverage. Paula and her HR Assistant, Natalie Ponkilla, are working to keep the Tribe in compliance with the State and Federal guidelines. She has thus far shown to be a dedicated and hard working HR Director. We are looking forward to positive changes in her department that will benefit not only the Tribal employees but Tribal members as well.

School Clothing Allowance Program

Administrative Guidelines

Revised: October 15, 2008
By Resolution No. E-AS-2008-95

1. Applications for the school year will be available January through December. These applications can be obtained at the Absentee Secretary's Office or on the Tribe's Website: www.astribe.com.
2. A School Clothing Allowance Program application (attached hereto) must be properly completed, signed and submitted to the Tribal Secretary's Office by the parent/guardian of the enrolled Tribal Member.
3. The application must first be completed by the parent/guardian. The application must be taken to the school the child is attending to obtain a valid signature of a school official. Authorized signatures that are acceptable are: SCHOOL COUNSELOR, PRINCIPAL, OR SCHOOL SECRETARY. The school official's signature must also include their job title and MUST HAVE A STAMP OR SEAL. Applications that are turned in without a stamp or seal and a copy of their CDIB card will be put in pending status until all requirements are met.
4. It is the responsibility of the parent/guardian of the applicant to present the copy of a CDIB card when submitting the clothing application.
5. Once the application is approved, you will be issued a Visa Card in the amount that has been approved for the Tribal Member. The receipts are to be turned in as soon as possible in order for the Tribal Member to be eligible for the following year, if applicable.
6. The Visa Card is to be used only to purchase clothing and shoes at any merchant that accepts Visa.
7. There will not be cash refunds on any item purchased. The funds must be placed back on the card.
8. A fee for a replacement card will be five dollars (\$5.00) and this will be deducted from your clothing allowance on the first replacement. Any replacements after the first one will be a charge of ten dollars (\$10.00) by Money Order or Cashier's Check.

9. If misuse of credit card is reported to the Tribe from banking institute first offense will result in deduction from the following year's clothing allowance. Thereafter misuse reported from banking institute will result in becoming ineligible for the following year.
10. The Visa card is good for five (5) years.
11. Students in 12th grade will only received one (1) clothing allowance during their senior year.
12. Students graduating 12th grade will have until September 1st of the graduating year to use the clothing amount before it is cancelled. Any amount on card will be returned to the Clothing Program.

These amended School Clothing Allowance Program Administrative Guidelines supersede any and all Children's School Clothing Allowance Program Administrative Guidelines which were previously in effect.

Constitution Revision Committee Update

The Constitution Revision Committee met on December 13, 2008. We discussed leaving Article III- Membership the same. The Revision Committee felt that most of the issues regarding Membership should be addressed in the Membership Ordinance and the Constitution is general enough to allow changes to take place as needed. Members of the Revision Committee feel that the Legislation should take care of the reduction of blood quantum once the new Constitution is in place. The Revision Committee discussed Article IV- Tribal Government and we all agreed that the three branch government was a change our tribe needed. The Revision Committee began laying out the framework for the three branch government with the Executive Branch, Legislative Branch and the Judicial Branch. The Legislative Branch will be separate from the Executive Branch, this will require that the Tribe be organized into different districts so that there will be equal representation for all Tribal members. The Revision Committee is currently looking into how many districts are needed and how the district lines will be drawn. We are also looking into the idea of representation in the Legislature for Tribal members who live outside of the jurisdiction as well. The Revision Committee would like to hear some of your ideas or thoughts about these changes and encourage interested Tribal members to attend the meetings.

Also, if you are unable to attend a meeting and would like to give your input or have questions you may contact Briana Ponkilla, at bponkilla@astribe.com or (405)275-4030 x 131.

George Blanchard for Governor

Hello fellow tribal members:
At this time, I hope everyone is aware of my intention to run for the seat of Governor of our tribe.

It is, and will be, my goal if elected, to aggressively address the following issues.

1. Aid to the Elders of our tribe. Too many programs have been put on the back burner concerning aid to the elderly, and these issues must be aggressively pursued.
2. Better programs for the children of the tribe. I, like all of you, am aware of the Economic challenges facing all who have young children to take care of. I hope to establish, or reimplement some of the programs needed to assist these families.
3. Cultural Preservation. As we all know, the preservation of our culture and traditions are vital to our survival as a Native American Sovereign Nation. Our elderly, and our children ARE our culture, and our legacy, and MUST be preserved.

If you find me worthy of your vote, I will do my best to make decisions based on the good of ALL persons, and not just a few persons.

As most of you know, I have devoted the majority of my life to the preservation, practice, and teaching our children of our cultures and traditions. IF elected as your Governor, I will most certainly continue with these principles, and will make every effort to help each and every one in the Absentee Shawnee Tribe do the same.

I welcome, and am looking forward to answering any and all questions you may have regarding issues that you feel need to be addressed during this election. After all, it is YOU that I will be serving if elected to Governor of Absentee Shawnee Tribe.

Respectfully, George Blanchard

2008 ASTChildren's Christmas Party

The annual Children's Christmas party was held on Sunday, December 21st at Tecumseh Square Center. Many families attended and the children were given gift cards for Wal-Mart. Door prizes were also given as well, with a variety of toys for the winners to choose from.

Santa was the special guest and was very busy as he took many photos with all the children.

Governor Scott Miller, Secretary Michelle Lopez, Treasurer Anita Chisholm and Representative Alecia Onzahwah were also our special guest and the host of another successful Christmas party for all the families who attended.

Hope you all enjoyed it and that you all enjoyed the holidays!

Title VI Staff gave hams to elders for Christmas

The Title VI staff were driving around like little elves during Christmas passing out hams to the elders. They were able to deliver hams to the home-bound participants as well as the elders who visit the congregate sites.

Your great work and effort was greatly appreciated by all. Thank you Title VI staff for your gift.

Just a reminder...

We will be closed on February 16th for President's Day.

Foster Parents Needed!!!

Can you open your home and heart for a foster child.? Foster parents provide a temporary, safe home for children in crisis. Foster parents are partners with child welfare workers, lawyers and judges. It is not for everyone but if you have it in your heart - we need you.

- Can you love and care for a child who comes from a difficult background?
- Can you help a child develop a sense of belonging?
- Are you secure in yourself & your parenting Skills?
- Can you maintain a positive attitude toward a child's parents?
- **Can you love with all your heart & then let go?**

Many children need a loving home and a family to help them through a very tough time. Please think about it and talk with your family before you become a foster home. They all need safe, supportive environments!

If you find yourself and your family interested in Foster Care, please contact Melissa Lopez

From l to r; Assistant Chief David Haskins, Detective Anthony Johnson and Officer Al Wysocki

On January 8, Assistant Chief David Haskins presented two members of our AST Police Department with awards for their leadership, their high degree of integrity, responsibility and ambition.

Haskins presented Detective Anthony Johnson with the Police Commendation award. Haskins stated that he has known Detective Johnson for approximately eight years and in addition to his professionalism, he has proven his leadership ability by working with fellow peace officer's to ensure every aspect of our profession is handled to the letter of the law by taking over any given situation our badge is requested to endure.

Al Wysocki was awarded the Distinguished Service award by Assistant Chief Haskins. Haskins also stated that he has known Wysocki for approximately five years and he too has displayed a high degree of integrity, responsibility and ambition. Wysocki is definitely a leader and has stepped up by coordinating multiple continuing education courses for the police Officers of the Absentee Shawnee Tribal Police Department as well as for over 700 Law Enforcement Officers throughout the state of Oklahoma and several surrounding states.

Detective Johnson and Mr. Wysocki have earned these awards for their dedication to public safety, to the Absentee Shawnee Tribe and the Absentee Shawnee Tribal members.

FYI from the AST Police Department

The Federal Bureau of Investigation in Oklahoma along with the Bureau of Indian Affairs in Oklahoma have put in place a toll-free telephone number that provides a one step method of reporting major crimes that occur on any of the tribal land in Oklahoma.

To provide one place to report major crimes which have occurred on tribal land, a toll-free number, (877) 658-7423, has been established. This telephone number will be answered 24 hours per day by employees of the Oklahoma City Division of the FBI. To help alleviate confusion, callers can contact 1-877-OK-TRIBE in instances of serious crimes and be confident the matter will be referred to the proper authority. Calls will be documented on a questionnaire and the matter will then be referred to the appropriate agencies with a record of the complaint and referral being maintained.

The FBI also stated that this initiative is not intended to replace or circumvent direct calls to tribal and local law enforcement, nor is it a substitute for the emergency 911 system.

If anyone has any question concerning the toll-free number established by the FBI and BIA please contact me at the Absentee Shawnee Tribal Police Department.

Sincerely
Bradley Jackson Acting Chief of Police

LIHEAP Eligibility Allows Food Stamp Increase in Several States

While a \$1 LIHEAP benefit may seem meaningless, it is a common practice in several states because it can mean increased Food Stamp benefits for low-income families. Under Food Stamp regulations, receipt of a LIHEAP benefit, regardless of the amount, enables Food Stamp recipients to maximize their Standard Utility Allowance (SUA). Using the highest allowable SUA in the Food Stamp benefit calculation may make otherwise ineligible applicants for Food Stamps eligible and may significantly increase Food Stamp benefits for many households.

To find out if you are eligible to receive Food Stamps or to increase your Food Stamp benefits call AST Social Services at (405) 275-4030 to obtain your local Department of Human Services (DHS) office number.
